CENTRAL FIGURE IN MATRIMONIAL TANGLE WHICH EMBARRASSES HUMMEL

MRS. FLORENTINE COWLES DODGE-MORSE.

Whose sensational matrimonial experiences have puzzled the whole country. It was alleged that her marriage to Charles W. Morse was filegal, owing to the fact that her divorce from Charles Dodge had been secured in an irregular manner. Hummel, the New York attorney, in his alleged spiriting of Morse out the jurisdiction of the New York courts, and his conduct of the case, is charged with using means which constituted filegal conspiracy. It is upon indictments charging this offense that the lawyer is now on trial.

He added: "I am authorized to state and I state here that this view of the Committee on Appropriations and of, I believe, every Senator here, that it is improper and useless and leads to no good results, is recognized by the administration and that hereafter the secretary of the commission is to be given administrative duties so that the whole machinery of the Press Bureau is to be discontinued. That will be done as an administrive measure, and there is no opposition to the change on the part of anyone."

Chairman of Panama Canal Commission Conducts Railroad on the Side.

DOESN'T INTEND TO RESIGN

Claims There Is No Conflict in the Work and He Is Ambitious to Build Up the Road.

REPUBLIC SPECIAL.

Toledo, O., Dec. 16.—Although weighted down with all the responsibility of the construction of the Panema Canal. Theodore P. Shonts, president of the commission, still retains his active position in regard to the affairs of the Toledo, St. Louis and Western Railroad, better known as the "Clover Leaf." All the important questions which come up for discussion are finally handled by Mr. Shonta, and while he is practically away from the work all the time, it is understood that he is in a direct communication with the office forces all the time.

George L. Ross is really the man acting for Mr. Shonts here, but it is also understood that Ross works entirely under Shonts's orders. It is a known fact that all the important orders bear his signature and that, in most cases, important documents are signed by him personally when they can be sent to reach him.

NO STRINGS ATTACHED. REPUBLIC SPECIAL

NO STRINGS ATTACHED.

NO STRINGS ATTACHED.

In substantiation of the statement that he is still the active head, it may be said that, in the early part of the summer, when his name was being associated with the Panama Commission, he made a careful inspection of the Clover Leaf, inquiring carefully into the binaller details of the work and at that time recommended several important changes. He also made two or three appointments in his office force.

Then came his appointment on the commission and the question was asked generally whether or not he would give up the presidency of the road. His answer was that he would not, and there is no evidence in Taledo obtainable that he ever said he would resign from the road to undertake the canal work, and it is said by a well-known railroad man in close touch with Shonts, though of another company, that, had there been any strings tied to his appointment such as that, he never would have accepted it.

Mr. Shonts was elected president of the "Clover Leaf" road a short time after it was taken out of the hands of a receiver, and while it was in fair shape at the time, he took charge of it, he has made many important changes which have materially bettered its condition.

DOESN'T INTEND TO RESIGN.

DOESN'T INTEND TO RESIGN.

DOESN'T INTEND TO RESIGN.

Mr. Shonts is a man of rare executive ability, courageous and very determined, and once he sets his mind to a thing it has to go. He determined to build up the "Cover Leaf" and set his plans in operation. It is safe to assert that until these plans win or fall T. P. Shonts will not resign the active management of the Clover Leaf Rallroad.

This road of late has grown to be an important factor in Western railway circles, not so much from its direct lines, but from the leased lines operated with it. It is understood that the plans of Mr. Shonts have been arranged so that they are successfully working out under the direction of his under officers; that while he is active in the work of the road at the same time his activity in that direction does not conflict in any way with his work for the commission.

After Mr. Shonts returned from his first

money being appropriated by the Government. To place them on a proper basis requires many hundred millions.

"The Government has even gone so far as to appropriate all the savings banks funds, using the same to boister up dubious banking and commercial enterprises, and has used the same for bourse speculations, thus imperiling the hard-earned savings of the poor.

GOLD RESERVE DWINDLES

GOLD RESERVE DWINDLES.

The gold reserve in the Imperial Bank is quite insufficient to meet the Government obligations and its economic position. It has literally disappeared into thin air. The result would be something awful if the Government were called to meet its obligations in gold.

Taking advantage of its irresponsibility, the Government has been accustomed to obtain loans infinitely above the power of the country to meet, making new loans for the country to meet, making new loans for the purpose of meeting calls for interest on old obligations.

"From year to year the Government is perpetrating shameful deceptions, drawing up budgets in which expenses are shown purposely diminished, and income increased. Profit has been shown where there was nothing but loss, while higher officials were pillering the state funds with impunity.

ASSEMBLY'S TASK. ASSEMBLY'S TASK.

"To undo these terrible facts, and all this long-continued speculation, the only possible medium is an effective assembly. Even then it will be difficult. That body must, as its first task, take in hand a strict investigation into the finances of the country, and show the people an honest picture of the position in all its horestory.

the utmost secrecy to hide its plans from the other, but the spy system of each party is so developed and elaborate that the moves of the one are pretty well known to the other. And what is more, both sides are aware of this.

Each day brings news of fresh discontent among the troops. They are tired to death of continued police duty, as they call it. In many towns the soldiers have declared that they will not serve to suppress popular demonstrations.

Count Witte's position is very much shaken. Nicholas if has expressed an opinion to the effect that the fremier has falled to carry out his promises. He would like to call in someone else.
